EDUCATION

National University of Sciences and Technology (NUST)

Bachelor's in Software Engineering

Islamabad, Pakistan

October 2020 – July 2024

WORK EXPERIENCE

Squadly – Software Engineer (React JS)

Sep 2024 – present

Remote - Australia

- Developed scalable, high-performance React.js applications within **NX Monorepo** architecture.
- Managed **global state** with Redux & Redux Saga to streamline asynchronous API logic.
- Optimized UI performance through caching and API response optimization.
- Collaborated in a product-based environment using Bitbucket for version control and cross-team coordination.

Tbox Solutionz – Associate Software Engineer (MERN)

May 2024 – Sep 2024

- Built full-stack applications using **MongoDB, Express.js, React.js, and Node.js**.
- Designed RESTful APIs with Express.js for seamless frontend-backend communication.
- Improved application efficiency by implementing a **modular backend architecture**.
- Used Git for version control and contributed to **cross-functional team collaboration**.

Zak Studio – Junior Front End Developer

Nov 2023 – July 2024

Remote – Part-Time

- Developed **Next.js & TypeScript** applications for the e-commerce sector.
- Created a responsive and visually appealing UI with **ShadCN UI** and Tailwind CSS.
- Improved SEO and load time performance using Next.js **SSR and CSR** techniques.

PROJECTS

Medical Certificate Online | [Live Link](#)

- Built a platform enabling patients to request medical certificates from **PMDC-certified doctors**.
- Implemented form handling with React-Hook-Form and validation using Zod.
- Managed global state using Context API and used Tailwind for styling.
- Integrated Axios for API communication and implemented Easypaisa for secure online payments.

Tech Stack: React.js, Typescript, React-Hook-Form, Zod Validation, Context API, Tailwind CSS, Axios, Easypaisa Integration.

Earn in Dollars (Freelancing Website)

- Developed a freelancing platform using Next.js with server-side and client-side rendering.
- Implemented form handling with React-Hook-Form and validation using Zod.
- Integrated Stripe for secure payment processing and transactions.
- Set up user authentication and authorization with NextAuth.

Tech Stack: Next JS, SSR, CSR, React-Hook-Form, Zod Validation, Stripe Integration, NextAuth.

CardClubb | [Github](#) | [Live Link](#)

- Developed user flows for login, registration, and greeting card customization.
- Allowed users to upload images and edit cards.
- Hosted on VPS with SSL certificate.

Tech Stack: React JS, Context API, MongoDB, Express, Node JS.

OTHER

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, ShadCN, Redux Toolkit

Backend: Node.js, Express.js, MongoDB, MySQL

Tools: Git, GitHub, Bitbucket, NX, Turborepo

Others: REST APIs, Context API, Redux Saga, React Hook Form, Zod, Stripe, Easypaisa, NextAuth
